European Cultural Route of Reformation

The Vision

The forming cultural route is the reflection of centuries of histories, when movements of Christianity all around Europe shared the will to change the institutions and break the status quo.

We are a transnational route, built on the high level participation of churches, associations, public institutions and other stakeholders and are looking for new partners to enrich our network.

As an open and tolerant network, we combine the diverse aspects of the Reformation across national boundaries: we value our differences and the plurality of the history of the Reformation in our regions, cultures and societies. At the same time, we are united under the Routes of Reformation, which enhances our common heritage and values, standing out as a unique contribution to tourism and the development of our territories.

We provide a diverse, spiritual and unique experience in all territories involved, with an efficient management of the route, with innovative and sustainable tourism, while communicating our route in a contemporary way.

Shape the Routes of Reformation With Us

Routes of Reformation will be an "Archipelago Route": A network of points of interest as well as (inter-)regional routes linked by a common theme and story.

The network will include:

Events, performing arts and traditions

Single points of interest

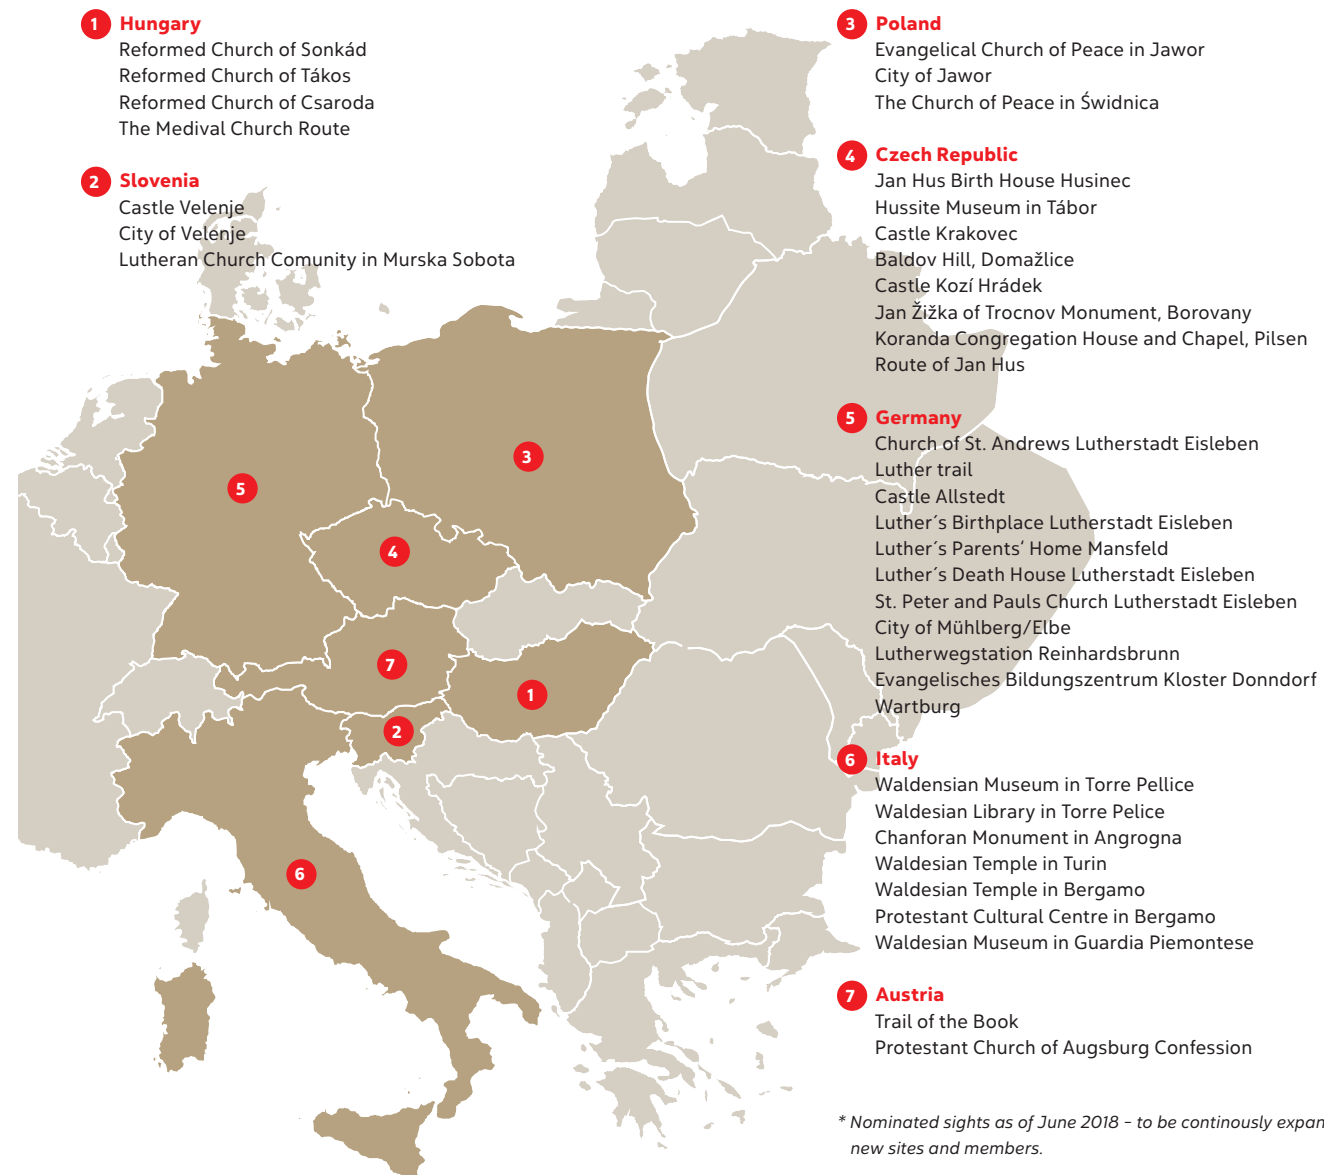

Routes

Towns and cities

The network Routes of Reformation aims to be a certified cultural route by the Council of Europe and is being developed in the framework of the Interreg Central Europe funded project „European Cultural Route of Reformation“ until June 2019. After June 2019 the network will be managed by the Routes of Reformation Association and will further work together and grow and expand.
